

Oats cultivars

for grain, grazing and hay

SSH 4185

Oats | Haver

New oats cultivars are in the process of commercialization and seed production. These cultivars are suitable for grain production as well as grazing and hay purposes.

- New exciting oats cultivar with a medium to long growth season
- Suited for grazing and hay production
- Good regrowth after grazing

Nuwe haverkultivars is in proses van kommersialisering. Die kultivars is geskik vir graanproduksie asook sny- en baaldoeleindes.

- Nuwe belowende haver kultivar met medium tot lang groeiseisoen
- Geskik vir graan, weiding en hooiproduksie
- Goeie hergroei na beweiding

Cultivar characteristics | Kultivareienskappe

Grain Yield	Average Gemiddeld	Graanopbrengs
Hectolitre Mass	High Hoog	Hektolitermassa
Lodging Tolerance	Good Goed	Staanvermoë
Plant height (cm)	90	Strooilengte (cm)
Crownrust Resistance	Good Goed	Kroonroesweerstand
Purpose	Grain and Hay Graan en Hooi	Doel

Seeding Density | Saaidigtheid

Area	Kg/Ha	Area
Rainfed	25	Droëland
Irrigation	75 - 100	Besproeiing
