

SSS6560 tuc

| Eienskappe | | Characteristics |
|-------------------------------|-------------------------|-------------------------------|
| Volwassenheidsgroep | 6.0 | Maturity Group |
| Groeiwyse | Onbepaald/Indeterminate | Growth Type |
| Dae tot blom | 70 | Days to flowering |
| Planthoogte (cm) | 90 | Plant Height (cm) |
| Peulhoogte (1=hoog, 9=laag) | 2 | Pod Height(1=high, 9=low) |
| Staanvermoë | Goed/Good | Standability |
| Oopspring weerstand | Goed/Good | Shattering resistance |
| | Siekte weerstand | Disease resistance |
| Stamkanker | Uitstekend/Excellent | Stem Canker |
| Grootoog Blaarvlek | Goed/Good | Frogeye Leaf Spot |
| Bakteriese Skroei | Goed/Good | Bacterial Blight |
| Donsige Meeldou | Goed/Good | Downy Mildew |
| Cercospora Skroei & Blaarvlek | Goed/Good | Cercospora Blight & Leaf Spot |
| Fusarium spp | Goed/Good | Fusarium spp |

| Saaidigtheid/Seeding Density | | |
|------------------------------|-----------------------------|------------------|
| Area | Plante per Ha/plants per Ha | Area |
| Droëland - Koel | 280 000 – 300 000 | Dryland - Cooler |
| Droëland - Warm | 320 000 | Dryland - Warmer |
| Besproeiing | 300 000 - 400 000 | Irrigation |
