

# CULTIVAR TRIAL RESULTS

**CROP:** WHEAT – DRYLAND AREAS  
**TRIAL:** SENSAKO TRIAL  
**AREA:** BETHLEHEM  
**PLANT DATE:** SPRING PLANTING OCTOBER 2018

## Lentekoring aanplanting Oktober 2016 – Bethlehem

### Spring planting October 2016 - Bethlehem

- Opbrengsproewe geplant in Oktober 2016 geplant was opgevolg deur goeie November reën
- Besondere goeie opbrengs deur kultivars vrygestel vir lente aanplantings asook goeie opbrengste behaal deur besproeiingskultivars in vergelyking met tradisionele droëland kultivars
- Yield trials planted in October 2016 followed up by good rainfall in November.
- Exceptional yields achieved by new cultivars released for spring wheat plantings. Good yields achieved by the irrigation cultivars compared to the traditional dryland cultivars
